

SOLID TECH

Radius

Radius corner-pillars are made from the finest Swedish Aluminum extrusion and beautifully anodized in either deep black or satin silver finish.

The choice of Aluminum and extensive internal bracing provides for a very favorable weight/stiffness

ratio and a non ringing design.

Four well chosen pillar lengths constitute standard range, namely 65,5; 150; 234,5 and 319 mm. Radius can in this way be tailor made to your needs and wishes. If that was still not good enough, we are making custom pillar lengths

between 30-650 mm.

Radius standard racks are available in ten different widths from 680 mm to 2180 mm, seven different shelf variants and two different pillar colors, the choice is entirely yours.

Radius variants and options

Solo

Solo 5 - 680 mm

Solo 4 - 680 mm

Solo 3 - 680 mm

Solo 2 - 680 mm

Solo 1 - 680 mm
