

SOLID TECH

Hybrid full length

“Hybrid full length” is a ultra rigid solution that offers corner-pillars in full length. Available lengths are 670 and 900 mm.

Below picture shows a Hybrid rack composed of 900 mm silver

anodized Corner-Pillars, three Hybrid-Shelf-Kits and a dedicated Hybrid turn table shelf on top, supported by the unsurpassed Hybrid Isolation System (optional). The total available space between

the three shelf trays is 680 mm. The user can freely determine the amount of shelves to use pending the equipment sizes, as the shelves are fully adjustable along the corner-pillar length.

Hybrid full length

Hybrid offers an endless amount of rack designs because of its modular system

Example of rack design with 900 mm corner pillars and four shelf-kits

Example of rack design with 670 mm corner pillars and three shelf kits

Hybrid Full Length building blocks

Shelf-kit (shelf and extrusions in black or silver)

Corner pillars in 670 and 900 mm lengths in black and silver
