

SOLID TECH

Radius

Radius corner-pillars are made from the finest Swedish aluminum extrusion and beautifully anodized in either deep black or satin silver finish.

The choice of aluminum and extensive internal bracing provides for a very favorable weight/stiffness ratio and a non ringing design. By adding the Top Shelf or

Middle Shelf Isolation system, the shelves become de-coupled from the floor and other components in the rack.

Four well-chosen pillar lengths constitute standard range, namely 65,5; 150; 234,5 and 319mm. Radius can in this way be tailor made to your needs and

wishes. If that was still not enough, we are making custom pillar lengths between 30-650 mm. Radius standard racks are available in ten different widths from 680 mm to 2180 mm, seven different shelf variants and two different pillar colors, the choice is entirely yours.

Radius variants and options

Solo

Solo 5 - 680 mm

Solo 4 - 680 mm

Solo 3 - 680 mm

Solo 2 - 680 mm

Solo 1 - 680 mm

Duo

Duo 2 - 1270 mm

Duo 3 - 1270 mm

Cinema and Solo A/V racks

Cinema 5 - 1590 mm

Solo 6 HT - 1860 mm

Cinema 8 - 2180 mm

Optional Floor Protectors

Floor protectors

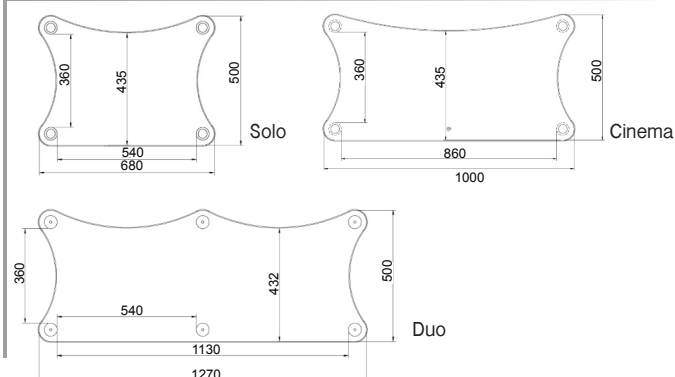

Feet of Concrete

Spike Fixed Floor Protector
